Machine Learning
Credits: 3

Learn how to build systems that improve with experience

How can the process so many letters so fast? How do and know what you might like? How can and organize and rank so many documents and web pages? How can an SUV drive itself unassisted for 100 miles on the desert? How can be so good at filtering spam? What’s behind voice-activated and speech recognition systems?

Register for CSE 391–01 and come find out!

Time: MoWe 5:20PM - 6:40PM  Room: S B UNION 237 WESTCAMPUS
Instructor: Luis E. Ortiz (leortiz@cs.stonybrook.edu)
